# SITE-LOG LFVB

**Product Specifications** 

#### **OVERVIEW**

The SITE-LOGLFVB data loggers (high accuracy) are 7-channel, battery powered, standalone voltage data loggers, with storage up to 8 MB of data in non-volatile flash memory. Input voltage signals can be from sensors, transducers, transmitters or any other common voltage sources.

Its on-board temperature channel provides environment monitoring and temperature compensation.

Its aluminum enclosure makes it excellent in the harshest industrial environment.

Plug & Play USB port and versatile custom equation simplify communications and engineering unit conversion. 16-bit ADC makes it well suited for science and laboratory applications where precise and accurate measurements are critical.

> Microedge Instruments Inc. 407 - 15216 North Bluff Road White Rock, BC, Canada, V4B 0A7

Simply plug the logger to computer's USB port, and the software automatically recognizes it and handles the configuration, downloading, graph viewing and more...

## **FEATURES**

#### **High Data Resolution:**

The 16-bit analog-to-digital converter meets most high-resolution requirements.

#### Large Memory Size:

The 8-Mega-Byte Memory stores years of measurements.

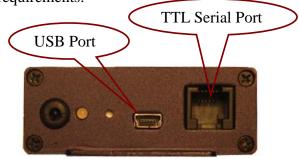

#### **Programmable Input Ranges:**

One on-board thermistor channel monitors ambient temperature. Seven rangeprogrammable voltage external input channels cover wide measurement requirements.

# Multiple Communication Interfaces:

The SITE-LOG data loggers can be accessed via USB, MODEM, or Ethernet connections with auto baud rate of up to 115 kbps.

Toll Free: 1.877.352.9158 info@microedgeinstruments.com www.microedgeinstruments.com Its on-board TTL serial port and USB interfaces meet most communication requirements.

## **10-Year Battery Life:**

The internal lithium battery provides over 10 years of instantaneous logging operation when sampling at an interval of one minute.

## **Fast Sampling Mode:**

The SITE-LOG data loggers can log data with the sampling interval as fast as 20 milliseconds, replacing data acquisition devices.

## Alarm and Excitation Output:

The SITE-LOG data logger notifies the alarm condition over alarm terminal strips or communication lines. (USB, Serial Port, MODEM)

Excitation control turns on the power of external transmitter/transducer only when the logger is sampling.

## **SITEVIEW SOFTWARE FEATURES**

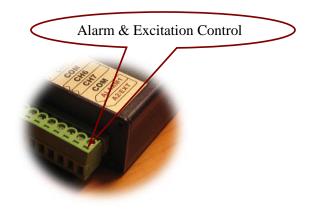

SiteView is a PC based application works with SITE-LOG Series data loggers for downloading, configuration and data analyzing and plotting.

Its user-friendly graphic interface plus powerful functionalities fit both novice and advanced users.

The versatility of custom equation and custom-line equation handle complicated measurement requirements.

Features:

**Microedge Instruments Inc.** 407 - 15216 North Bluff Road White Rock, BC, Canada, V4B 0A7 Toll Free: 1.877.352.9158 info@microedgeinstruments.com www.microedgeinstruments.com

## **Rugged Physical Design:**

The rugged aluminum enclosure and coated PCB makes the SITE-LOG data loggers perfect in the harshest industrial environment.

- Support USB, Serial port and Ethernet connections for easy local and remote access
- Fast communication speed up to 115200 bps makes downloading fast
- Real-time view and chart recording replaces chart recording device
- Custom equation and custom-line equation solves scientific and laboratory algorithm difficulties
- Zoom in/zoom out, annotation/label of graph functions provide detailed view of data
- Multiple file loading allows easy data comparison
- Dynamic statistics provides detailed information of current zoomed view
- ★ Export to CSV, TXT, BMP, JPG, TIF, PNG, GIF file formats.

# **SPECIFICATIONS**

| Product Identification  |   |  |  |
|-------------------------|---|--|--|
| Product Name            | Site-Log  |  |  |
| Model                   | LFVB-1,2,3,4  |  |  |
| Inputs                  |   |  |  |
| Connections             | Pluggable terminal block for seven external channels, excitation controls                                   |  |  |
|                         | and alarm outputs.  |  |  |
| Channels                | One on-board thermistor temperature ( $-40^{\circ}$ C ~ $70^{\circ}$ C, $-40^{\circ}$ F ~ $158^{\circ}$ F). |  |  |
|                         | Seven external Voltage DC Inputs:   |  |  |
|                         | For LFVB-1: seven 20 VDC channels.  |  |  |
|                         | For LFVB-2: seven 10 VDC channels.  |  |  |
|                         | For LFVB-3: seven 5 VDC channels.   |  |  |
|                         | For LFVB-4: seven 2 VDC channels.   |  |  |
| Resolution              | 0.0018%   |  |  |
| Accuracy                | Thermistor channel: +/- $0.2^{\circ}C(0^{\circ}C \sim 70^{\circ}C, 32^{\circ}F \sim 158^{\circ}F)$          |  |  |
|                         | Voltage channels:   |  |  |
|                         | +/- 0.05% FSR @ 25°C for 20V, 10V, 5V channels  |  |  |
|                         | +/- 0.1% FSR @ 25°C for 2V channels   |  |  |
| Input Impedance:        | > 1 MOhms   |  |  |
| Over-voltage protection | +/- 40 VDC  |  |  |
| Alarms                  |   |  |  |
| Channel Alarms          | Two editable alarm thresholds per channel.  |  |  |
| Alarm Outputs           | ALARM1 & A2/EXT terminal strips can be configured as alarm outputs.   |  |  |
|                         | Alarm-On: MOSFET(N-Channel) switch on.  |  |  |
|                         | Alarm-Off: MOSFET(N-Channel) switch off.  |  |  |
|                         | Max Power: 200mA @ 24VDC.   |  |  |
|                         | With purchase of SiteView software, the Site-Log can report alarm status                                    |  |  |
|                         | to host PC via USB, Modem or Ethernet Device Server.  |  |  |
| Alarm-On Delay:         | Programmable 0 - 10 minutes delay with 1-minute increments.   |  |  |
| Alarm Indicator         | On-board LED lights in red when in alarm condition.   |  |  |
| <b>On-board Memory</b>  |   |  |  |
| Capacity                | 8 Mega bytes (4 Mega measurements).   |  |  |
| Data Retention          | Over 20 years.  |  |  |
| Sampling & Logging      |   |  |  |
| Sampling Interval       | 20 milliseconds to 12 hours user selectable <sup>[1]</sup>  |  |  |
| Logging Mode            | Stop recording or FIFO when memory is full.   |  |  |
| Logging Activation      | Programmable instant, start delay or field push-button activation.  |  |  |
| Communications          |   |  |  |
| Interface               | USB(USB cable included).  |  |  |
|                         | AUX(RJ11) for direct TTL level communications.  |  |  |
|                         | With purchase of DeviceServer Kit, the Site-Log logger can be connected                                     |  |  |
|                         | to Ethernet for remote access.  |  |  |

| Baud Rate               | Auto-detect baud rate from 2400 to 115200 bps on both USB and AUX                       |  |  |
|-------------------------|---|--|--|
|                         | ports.  |  |  |
| Battery                 |   |  |  |
| Power                   | Built-in 3.6V Lithium Battery.  |  |  |
| Life Cycle              | 10 years based on 1 minute sampling interval.   |  |  |
| Software                |   |  |  |
| SiteView <sup>[2]</sup> | Configuration, downloading, plotting, real-time view, custom calibration                |  |  |
|                         | and custom equation.  |  |  |
| Software Requirements   | Computer with 1.0 GHz or faster processor   |  |  |
| -                       | 256 MB Memory or higher   |  |  |
|                         | 1.0 GB of available hard-drive space or higher  |  |  |
|                         | Windows XP with SP2 or later, Vista, Window 7   |  |  |
|                         | At least one USB port or one COM port   |  |  |
| Physical                |   |  |  |
| Material                | Aluminum enclosure.   |  |  |
| PCB Treatment           | Conformal coating.  |  |  |
| Dimension               | 88 X 64.2 X 24 mm (3.46 X 2.53 X 0.95 inches)   |  |  |
| Weight                  | 200g.   |  |  |
| Mounting                | Probe/Wall-mount holes for hanging/mounting.  |  |  |
| Others                  |   |  |  |
| LED Indicator           | Tri-Color LED: (can be disabled for power saving)                                       |  |  |
|                         | Normal Sampling: green when sampling  |  |  |
|                         | Alarm: red when sampling  |  |  |
|                         | Low Battery: amber when sampling.   |  |  |
| Excitation Control      | A2/EXT terminal strip can be configured as excitation control output for                |  |  |
|                         | driving the power of connected devices.   |  |  |
|                         | Warm-up delay Interval settings: 10 to 240 seconds with 10-second                       |  |  |
|                         | increments.   |  |  |
| Operating Environment   | $-40 \sim +70^{\circ}$ C ( $-40^{\circ}$ F ~ $158^{\circ}$ F), 0~95% RH non-condensing. |  |  |
| Clock Accuracy          | +/- 1 minute per month.   |  |  |
| Approvals               | CE, FCC   |  |  |

[1]: Maximum enabled channel: 1 for 20ms interval, 2 for 30ms, 8 for 40ms or bigger interval. External power supply required if the sampling interval is less than five seconds.

[2]: Sold separately.

#### **LOGGING CAPACITY TABLE**

| Sampling<br>Interval | Enabled<br>Channel | Logging<br>Capacity | Sampling<br>Interval | Enabled<br>Channel | Logging<br>Capacity |
|----------------------|--------------------|---------------------|----------------------|--------------------|---------------------|
| 1 minute             | 1                  | 8 years             | 1 second             | 1                  | 48 days             |
| 1 minute             | 2                  | 4 years             | 1 second             | 2                  | 24 days             |
| 1 minute             | 8                  | 1 year              | 1 second             | 8                  | 6 days              |
| 10 seconds           | 1                  | 485 days            | 100 ms               | 1                  | 4 days              |
| 10 seconds           | 2                  | 242 days            | 100 ms               | 2                  | 2 days              |
| 10 seconds           | 8                  | 60 days             | 100 ms               | 8                  | 14.4 hours          |
